Tap the hidden reservoir of positive energy to create the life you want.

Fran Spayne

The United States is facing what is being described as a national financial crisis, along with soaring fear. Is this the life you want to create for yourself? With diminishing community resources, loss of jobs and even homes, families are facing a future with little to hope for. I am proposing to help you know and understand your true source of power. This source will be put to use for the highest good, to make a difference in your personal life, as well as your community, and potentially the world. Understanding you have the power to manifest will give you a great sense of peace, joy, happiness, hope, possibility and love, as well as an appreciation for others, helping to cultivate a peaceful world.

Fran Spayne, M.A., Life Coach, Psychological Intuit, Spiritual Therapist, for the past 25 years she has been using A Course In Miracles, Law of Attraction, as well as other spiritual teachings, metaphysics, and therapy to help create lives filled with more of what we really want, and less of what we don't. Fran's natural intuitive skills help uncover the blocks to loves presence in her clients.
